Core Work Skills

- Adherence to Deadlines
- Adaptability
- Integrity & Dependability
- Work ethic
- Willingness to learn
- Resourcefulness
- Organizational skills

Kimberly D. Yu

IT Support and Front-End Developer

Detail-oriented Computer Science student seeking an IT Support and Front-End Developer role, with hands-on knowledge of ReactJS, JavaScript, HTML/CSS, and UI/UX design. Certified in Computer Hardware Basics and IT Fundamentals, bringing practical experience in responsive landing page customization, technical troubleshooting, and cross-functional collaboration.

Education

Bachelor of Science in Computer Science

PHINMA UPang College Urdaneta | 2023 - 2027 (expected)

Experience

META Ads Video Editor

| FREELANCE

Earth Moon Magick | December 2025 - Present

- Customized responsive landing pages using GemPages and implemented theme modifications with Shopify Liquid, HTML, and CSS to enhance UX and layout responsiveness.
- Produced high-converting Meta video ads utilizing UGC and product footage, integrating dynamic B-roll, motion text, and audio design.
- Designed on-brand static and motion graphics for Meta ad campaigns using Meta Business Suite, ensuring compliance with mobile aspect ratios and standard operating procedures (SOPs).
- Served as an Instagram assistant responsible for creating feed/story assets, drafting copy, and directly publishing/scheduling scheduled content to maintain brand consistency and engagement.

Projects

FSLAMES: Filipino Sign Language Automated Mobile Education System

Thesis Project | 2025-2026

Python, MediaPipe, TensorFlow/Keras, TFLite | Front-end Developer & Documentation

- Designed mobile application interfaces and assisted with Android development using Claude AI-assisted coding to support an interactive Filipino Sign Language learning system.
- Contributed to dataset collection for machine learning-based sign language recognition and collaborated with the development team on application functionality.

BarangayONE: Barangay Services App and Staff Dashboard Prototype

Final Requirement Group Project | 2026

HTML, CSS, JavaScript, Cloudflare Pages, GitHub | Front-end Developer & UI/UX Design

- Designed and developed the user interface for a barangay services prototype, covering a resident mobile app for requesting and tracking documents and a staff dashboard for reviewing and approving requests.
- Built and deployed the project's public landing page on Cloudflare Pages, and applied panel revisions to improve consistency, accessibility and usability.

U-Eat Ordering System

Group project | 2024 - 2025

Android Application | Kotlin, Firebase, Android Studio

- Contributed to the development of an Android-based school canteen ordering application supporting customer orders and stall-owner order management.
- Designed and prototyped user interfaces using Kotlin, supporting app development and preparing technical documentation.

Certifications

Computer Hardware Basics | Cisco Networking Academy	November 2026
Information Technology Fundamentals | IBM SkillsBuild	October 2026
Introduction to Data Science | Cisco Networking Academy	December 2025
Introduction to Cybersecurity | Cisco Networking Academy	December 2025
Introduction to Cybersecurity Awareness | HP LIFE	July 2025
